Products of Inserco Mfg., Inc.

THE ULTIMATE CHOICE IN COMPUTERIZED INSERTING TECHNOLOGY

MODEL 9800/9800L EDGE and EDGE II INSERTERS

This rugged workhorse of the mailing industry is universally known as the best production value for the busy mail center and/or office environment. Engineered for reliable and long lasting service, the 9800/9800L, receiving periodic enhancements, has been in production for many years. It automatically collates, stuffs, and stacks envelopes or passes them through an inline postage meter to yield a finished mailing ready for bundling.

The basis of its smooth high-speed operation is the parallel or conjugated cam. Mailcrafters gripper arm detection system guards against misses or double

inserts and is regarded as the most reliable in the industry. Document separation and feeding from the insert stations is vacuum controlled providing the 9800/9800L with a high degree of consistency and reliability for all types of paper media.

The Model 9800/9800L is available in an envelope mounted turn-over, Sealer-Roller conveyor or stacker configuration. Standard features include a safety two hand start and simple initial machine setup with no special tools required.

This is a truly "operator friendly" envelope inserter.

The ultimate choice for any mail center and/or office environment.

MODEL 9800/9800L EDGE

*Edge Series 9800/9800L
6 Station Stacker*

Series Features:

- Unitized Drive
- Envelope Turn-Over, Sealer-Roller Conveyor or Stacker Configurations
- Two Handed "Safety" Start
- Simple Set-Up Procedure
- 5.7" Color Operator Interface (Touch Screen)
- PLC Control With Self Diagnostics
- Station Toggle
- Positive Vacuum Insert Selection
- "WHISPER" Vacuum Pump
- Sequential Start-Up/Shut-Down Programming

*Edge Series 9800/9800L
6 Station Mounted Turn Over*

MODEL 9800/9800L EDGE II SERIES INSERTERS

*Edge II Series 9800 Mounted Turnover
With Optional Standard Cabinet*

Series Features:

- PLC Control With Self Diagnostics
- Sequential Start-Up/Shut-Down Programming
- Station Toggle For Higher Production
- Positive Insert Selection
- "WHISPER" Vacuum Pump
- Unitized Drive
- Envelope Turn-Over, Sealer-Roller
- Programmable Light Tower
- Batch Running
- Production Information - Large 10" Operator Interface

*Edge II Series 9800/9800L
6 Station Mounted Turnover*
