

# QUICKWRAP H-50

## HORIZONTAL WRAPPING SYSTEM

# WRAPPING SYSTEM

### MODEL OVERVIEW:

**SUMMARY:** A turnkey automated solution ideal for mailing and fulfillment applications. The QuickWrap H-50 comes standard with one Universal Friction Feeder®, and is available with multiple Universal Friction Feeders® and an infeed conveyor for processing multiple documents.

- APPLICATIONS:**
- MAGAZINES
  - MAILING PUBLICATIONS
  - BROCHURES
  - CATALOGS
  - BOOKS
  - PRODUCT LITERATURE
  - MORE

### THINK AUTOMATION

The QuickWrap™ H-50 is the ideal fulfillment system solution for magazines, mailing publications, brochures, catalogs, books, product literature and more.

Automated with Streamfeeder Universal Friction Feeders®, the H-50 generates increased margins and fast return on investment on shorter jobs that are not cost effective to run on large wrapping, bagging or inserting systems.

### STANDARD FEATURES

- Fast and easy product setup and changeovers
- Rugged durability with minimum maintenance
- Universal Friction Feeders® for automated feeding
- Up to 50 packages per minute
- Simple operation for maximum R.O.I.
- Compact footprint takes up minimal space
- Motorized film unwind

The QuickWrap H-50-4 includes infeed conveyor and four Universal Friction Feeders
