# 7K-E

**The world's best  
address printer  
for 7,000 pieces  
per hour**

The 7K-E is the world's leading envelope printer for the frequent mailer that requires durability and reliability. This printer offers the opportunity to quickly, easily, and professionally print up to 7,000 envelopes per hour with Hewlett-Packard inkjet technology. Mail pieces as thick as 1/8 inch can be accommodated. Graphic images and barcodes can be printed anywhere on the mail piece at print qualities of 150, 300, or 600 dpi.

In addition to supporting any Windows-compatible font, the 7K-E has six internal type faces, which are scalable from 4 to 30 points and can be combined with the internal attributes of bold, italic, outline and variable-width. These combine to create 5,520 different fonts for each character! No other company offers so many internal fonts.

The 7K-E is a PCL5 graphics printer that can interface with any PC, mini, or mainframe. Windows 95®, Windows 98®, Windows NT® 4.0, Windows 2000®, and Windows XP® drivers are included.
